**Already made clothes.**

1. Clothing sizes are a general guide- measurements are given for more clarity of making sure garment will fit you.
2. Skirts may have another frill added for length- of which we will choose another corresponding fabric to match. (a small fee will be added for material.)
3. Elastic also may be tightened if need be. Elastic measurement is measured flat- no stretching which is what keeps it up so your waist measurement should be bigger than the elastic measurement by about 2-3 cm.
